rebootrecyclers.com

When electronics are donated to one of our partners or to us directly, we carefully separate and test items to determine condition.

Our main goal is to reuse, refurbish, or repurpose items instead of stripping them down to recycle, which ultimately creates more waste for the landfill.

If you are one of our donation partners we ask that you **CAREFULLY** handle items for donation. It really makes a difference! Thank you!

Visit our website for 24/7 secure donation locations
